

Tantramar Seniors' College: Course Outline

“History and Science of the Energy Concept from Galileo, Newton and Carnot to the Present Day”

Instructor: David Firth

(Winter Session)

This course will be comprised of 5 classes in the winter session. Classes will be held on Wednesdays from 1:30 to 3:00 pm on January 26, February 2, 9, 16 and 23rd.

Classes will be held in the Kimble Room at Trinity-St. Stephen's United Church.

The course discussions will revolve around the fact that Energy seems to have so many forms and how they

relate to one another.

David received a science degree in the U.K., did graduate study in Physics in Canada and taught and did research in the US and Canada.

David Firth can be reached at: 661-4282; Campbell.firth@northnovacable.ca.

Storm Policy: No classes when schools are closed in Amherst

Scent-Free: Some people are very sensitive to perfume and other scents. Please respect a scent-free environment by not using scented products. Thank you.

Attendance/Absenteeism: Our instructors are volunteers who work very hard putting courses together. Your cooperation is appreciated in letting them know by email or phone if you are unable to attend classes as most instructors plan for the number of students registered in the course. If circumstances change between registration and the first class, or if you decide to withdraw after the first or second class, please e-mail the coordinator at tsccordinator@nbnet.nb.ca or call her at 506-364-2780. Many courses have a wait list and this could allow someone else to take your place.
