

Voices of Faith: A Brief Look at World Religions
Mondays, 1.30-3.30 in the TSC class room

This seven week course is intended to serve as an introduction to some of the major world religions.

The format will be a talk by a practising member of each faith tradition with some time for questions.

The emphasis of the course is not so much on theology as on the practical aspects of living out each faith tradition in everyday life.

If there is time at the end, we will look together at what we have learned about any possible similarities between the various religions.

Oct 17
