

Mining Explained

- Instructor:** Wade Short and Jim Burns; wdsengservices@gmail.com; 506-530-5612
- Date/Time:** Thursdays; Feb 8, 15, 22, 29; 2:00 – 4:00pm
- First class:** Thursdays; Feb 8 (4 Session/s)
- Location:** Shediac Multipurpose Centre
- Participants:** Min: 6; Max: 24

Course Outline:

This course explains in basic terms the identification of basic mineralization, the various methods used to remove them from the earth and how they are processed to produce the final form in which they can be used by the public or as feed stock for other industrial processes. He will be assisted by other technical specialists from the mining world.

Instructor Bio:

Wade is a retired engineer who has travelled and worked across most of Canada and part of the US. The first 30 years was employed as a supplier of mech equipment for almost any piece of processing equipment used in these mines. In the last 10 years, he worked as an engineering consultant servicing the mining industry.

Remember to Check Your E-Mail Before Each New Course Begins and During the Course. You will receive an e-mail if:

- a)** the course is cancelled or delayed unexpectedly or if there is a change in the time or venue of the course; **b)** during the course if the instructor gives notice that he/she is ill or unavailable for one of the sessions. The course liaison will attempt to contact those without e-mail by phone, so please make sure TSC has your correct phone number and e-mail.

Attendance/Absenteeism. TSC instructors are volunteers who work very hard to prepare courses. Your cooperation is appreciated in letting them know if you are unable to attend as most instructors plan for the number of students who registered in the course. If circumstances change between registration and the first class, or if you decide to withdraw from the class, please e-mail the TSC coordinator at tscordinator@gmail.com or call 506-364-2780. Many courses have a wait list and someone else may be able to take your place. Once the class has started advise the instructor directly if you are unable to attend a session.

Classroom Compartment. Active class participation is welcomed and encouraged by TSC. We request that class members remain mindful of the level of comfort of their fellow students and the volunteer instructors as they participate in discussion.
